### **Keysight Technologies to Demonstrate NVMe, PCI Express®, DDR, USB Test Solutions at IDF15**

What: Keysight will demonstrate the following solutions at the Intel  
Community Booths:

#### **NVM Express**

The Infiniium oscilloscope and compliance application, as part of Keysight's solution suite, and the protocol analyzer and exerciser for PCI Express (PCIe®) testing. Demonstrations will focus on PCIe SFF-8639 (or U.2) testing supporting SSD drives

#### **DDR4 Memory**

The U4154B logic analysis system, capturing exact bursts of DDR4 3.3Gb/s data, in addition to new memory analysis software tools and DDR4 compliance test bench

#### **USB**

Showing how to resolve advanced USB test and characterization issues and well as transmission and receiver testing

When: August 18–20

Where: Moscone West Convention Center, San Francisco, CA  
[IDF15 San Francisco](#)  
NVMe (NVM Express) community booth #876  
DDR4 Memory community booth #956  
USB community booth #909
